

Are you ready for hurricane season?

If you, or someone you know, have special needs such as medical problems, hearing loss, or impaired vision, is there a plan in place when a hurricane is coming?

Planning for possible emergencies is crucial to survival and safety. Do you know someone who needs a person they can count on to help in an emergency?

Team up, find, or become a "Hurricane Helper" and start by making a list of what you need every day, like batteries for hearing aids, medications, equipment, food and water for service animals.

Start storing extras like food and water, a little at a time, so that you have enough to last at least a week or two at home without electricity or a way to get supplies.
